# YOUR FIRE. YOUR HEAT. YOUR WAY.

Enjoy just the right amount of warmth.

It's easy to add a Quadra-Fire gas fireplace to your home and get just **the right amount of heat you need.** The glowing coal bed and realistic logs give you the warmth and beauty of a traditional wood fire.

Unlike other decorative fireplaces, Quadra-Fire heater-rated gas fireplaces are **built to be used every day of the week**, even in a power outage.

## HOW WILL YOU LIGHT YOUR FIRE?

### CONTROLS FOR THE WAY YOU LIVE

**Recreational Heat**—you want to have heat when you're in the room. When you leave the room, turn off the fireplace with the **flick of a switch**. Any household wall switch will work. To save more energy use a motion detector switch.\*

**Zone Heat**—you want a little added heat whether you're in the room or not. Use a **wall thermostat** to make sure an area in your home doesn't get too cool.

**Spontaneous Heat**—not sure when you might want heat? Use a **remote control** to Start the heat when you want it.

\* Available from most home supply stores

Tuscan Bar front in Sienna Bronze with Antique Copper accents

## EXPRESSION 36 MAXIMUM EFFICIENCY

The Expression 36 offers maximum efficiency with maximum control. With the IntelliFire wall control, the Expression 36 features on demand heating power at the touch of a button. The Expression 36 ensures powerful heat and efficient performance for years to come.

### THE FIREBRICK® ADVANTAGE

FireBrick technology provides authentic brick patterns for the look and feel of a real wood burning fire. Our patented FireBrick resists rust and corrosion in the firebox and eliminates the noise associated with the heating and cooling of metal. FireBrick technology efficiently generates, retains, and radiates significantly more heat into the room than a metal fireplace.

### Features

FireBrick technology  
 IntelliFire™ wall control  
 Flame enhancing lights  
 Convection blower

Decorative andirons  
 and fire grate  
 Electronic IPI ignition  
 Six-piece log set

### Options

Six different fronts  
 (see page 6 for details)

- Tudor Panel
- Tuscan Bar
- Grecian Garden
- Chapel Hill
- Mission Hill
- Harmony Hall

Heat Zone® kit  
 Multi-function remote

Sun Prairie front in Classic Black

## qv36a POWERFUL HEAT

The qv36a gas fireplace offers control and performance with the ability to comfortably heat multiple rooms throughout the home. Optional Heat Zone kits allow the efficient heat from the qv36a to be moved to other rooms, creating a warm and cozy atmosphere. The safety pilot system and sealed combustion design of the qv36a improve efficiency and produce reliable heat on demand. Customize the qv36a with a stunning array of durable fronts in a variety of finishes providing the perfect accent to any room.

### Features

Sealed combustion chamber  
 Top or rear venting  
 Herringbone ceramic firebrick

Ceramic fiber split logs  
 Log grate with andirons  
 Standing pilot valve system  
 AFUE rated

### Options

Seven different fronts (see page 6 for details)

- Remington Avenue
- Chapel Hill
- Grecian Garden
- Sonoma Valley
- Harmony Hall
- Town Square
- Sun Prairie

160 cfm fan kit  
 Two wall thermostats  
 Three remote controls

- Smart-STAT II
- Smart-BATT II
- Multi-function remote

Remington Avenue front in Vintage Copper

## qv32a PERFORMANCE & CONTROL

The qv32a gas fireplace combines charming ambiance with powerful heat. A heat reflecting herringbone brick firebox and durable fire grate add to the classic masonry fireplace feel. Top and rear venting options allow placement virtually anywhere, and an optional multi-function remote allows for precise control of flame height and heat output. Complete the qv32a with a variety of front options ranging from clean contemporary to intricately designed traditional. All front options are available in a range of finishes to complement any home décor.

## GAS EFFICIENCIES

**Steady State** - Since most homeowners use their appliance for an extended time while they are in the room, Steady State measures how efficiently your appliance converts fuel to heat once it is warmed up and running in a “steady state”.

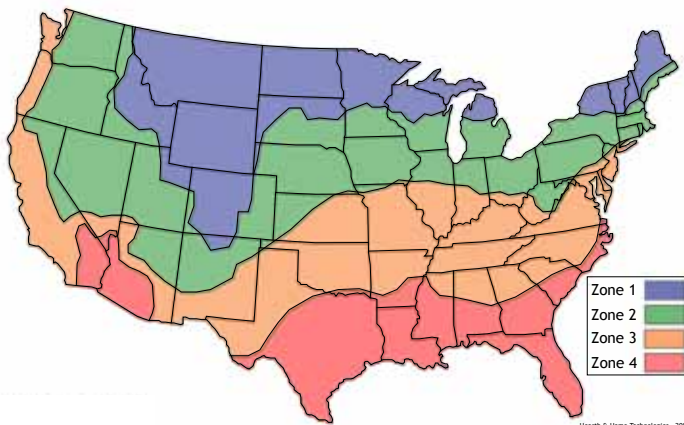

**AFUE** - AFUE rating is more typically used with appliances, like your furnace, that continually cycle on and off to maintain a constant temperature.

**EnerGuide (CSA P.4.1-02)** - EnerGuide is a rating used in Canada to measure annual efficiency.

FIREPLACE	U. S. EFFICIENCIES				CANADA ENERGUIDE	
	Steady State		AFUE		CSA p.4.1-02	
	NG	LP	NG	LP	NG	LP
